PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern

Apr 2024 – Jul 2024 | Remote, Canada

FYMAB 🌐

- Improved content layout with images and custom **CSS**, resulting in a 30% increase in user engagement and enhanced data collection for the LMS.
- Combined data from 8 different tables using **SQL**, performing data cleaning and transformation with **Python**.
- Built **10** interactive data visualization **dashboards** with Looker, seamlessly integrating them into the LMS using **JavaScript** to deliver real-time analytics.
- Developed and hosted an MVP on **Google Cloud Platform** in under three months, accelerating the early-stage development of gamified wellness solutions.

Full-Stack Developer Intern

Jan 2024 – Mar 2024 | Remote, Canada

SeeRem 🌐

- Developed full **CRUD** APIs with **ExpressJS/NodeJS** and integrated **MongoDB** using **Mongoose**, handling API requests (POST, GET, PUT, DELETE).
- Translated **API** requests into **SQL** actions to read and modify user information, connecting the front end to the database for dynamic content updates.
- Used Bootstrap's CSS Grid System to create responsive layouts, ensuring cross-device compatibility.
- Resolved 20+ **front-end and back-end bugs**, enhancing application performance and reliability.
- Employed **Git** for version control and feature management, streamlining the development process.

Counter Sales

Sep 2022 – May 2024 | Vancouver, Canada

Andrew Sheret Limited 🌐

- Assisted customers with product recommendations for plumbing and HVAC systems.
- Managed over 1,000 products in inventory and handled shipments.
- Demonstrated hands-on troubleshooting with mechanical and plumbing tools.
- Collaborated with a team of 20 to provide high-quality service in a fast-paced environment.

PROJECTS

Smooth Move 🌐

Oct 2023

- Developed a responsive real estate web app for property search and rental management using **React**, **Node.js**, **Express**, and **PostgreSQL**.
- Implemented user authentication with **bcrypt** for secure logins, property listings, and a rental management dashboard, ensuring scalability and performance.

Tweeter 🌐

Jun 2023

- Created a Twitter clone using **HTML**, **CSS**, **JavaScript**, **jQuery**, and **Node.js/Express** for real-time tweet posting and display.
- Utilized **AJAX** for dynamic updates, optimizing the app for seamless usage on desktop and mobile platforms.

EDUCATION

Diploma Full-Stack Web Development

Mar 2023 – Oct 2023

Lighthouse Labs 🌐

Bachelor of Science - Mathematics Major

Sep 2016 – Sep 2020

Simon Fraser University 🌐
